## API Docs:

---

<b>1</b>	<b>Quick Start</b>	<b>3</b>
<b>2</b>	<b>Full API Docs</b>	<b>5</b>

Flask-RangeRequest adds range request (RFC 7233) to your Flask app.

# CHAPTER 1

---

## Quick Start

---

```
from datetime import datetime
from flask import Flask
from flask_request import RangeRequest
from os import path

my_file = '/path/to/file'
app = Flask(__name__)
size = path.getsize(my_file)
with open(my_file, 'rb') as f:
    etag = RangeRequest.make_etag(f)
last_modified = datetime.utcnow()

@app.route('/', methods=('GET', 'POST'))
def index():
    return RangeRequest(open(my_file, 'rb'),
                        etag=etag,
                        last_modified=last_modified,
                        size=size).make_response()
```

## CHAPTER 2

---

### Full API Docs

---

Full API Docs cover basic usage of this package.
